

MEMBERTESTED

mosquito repellent

ThermaCELL fends off mosquitoes, black flies, and no-see-ums. The portable unit or lantern provides a 15-foot by 15-foot zone of protection using allethrin, a chemical copy of a natural repellent found in a member of the chrysanthemum family. These butane-powered appliances are odor-free, making them a great alternative to DEET sprays. The Schawbel Corp., 866-753-3837, www.thermacell.com. \$21.99.

MYRA GOLDBERG, ARLINGTON HEIGHTS, IL “I’ve used the ThermaCELL several times and I was never bothered by mosquitoes. It’s quiet and functional.”

JANNETTE FIKE, PEYTON, CO “Because it’s portable and compact, it’s easy to move anywhere you need it.”

TESTER RATINGS
